

Charlotte-Mecklenburg Schools Student Technology Agreement

Technology
Services

Purpose

The purpose of the Student Technology Agreement is to provide CMS students with the required technological resources to access learning in the modern school environment. All assigned student technology devices are the property of CMS to be used for educational purposes only.

Student ID: _____

School Staff Expectations

We will...

- Ensure that all students have a functional device to use at school and at home for educational purposes

We will not...

- Withhold technology as a method of disciplinary consequence to an action not related to technology
