Core Vocabulary

“Core vocabulary is a term used to describe a relatively small set of words that are used most frequently in oral and written language.

The words in a core vocabulary can be used to communicate for a broad range of purposes, from basic requesting of desired items to building social relationships, sharing opinions and exchanging information on topics of interest.”

Modeling is a powerful way to support communication and language development.

Without our models, students who are learning to use the Universal Core will hear spoken language or see sign language, but they will not experience others communicating in a way they can use. Modeling the Universal Core as often as possible

BY 18 MONTHS

babies have heard

10,000 HOURS

OF SPOKEN
LANGUAGE

and we don't expect them
to be fluent speakers

Week 1- June 13 - 17

Words to focus on this week:

LIKE

Idea 1: Try a new food and see who "likes" the food.

Idea 2: Listen to three different songs and decide which one you "like" the most.

WANT
