Setting Strategic Spending Priorities (CGCS)

1. How does this investment address current and long-term student needs?
2. How does this investment advance the strategic plan and instructional priorities, vision, and goals of the district?
3. What do we know already about the efficacy of this investment or the likelihood that a new, innovative initiative will be successful?
4. What will it take to effectively and equitably implement this program or strategy?
5. How will this investment be sustained or continue to build district capacity after the three years of relief funding ends?
6. How will success be measured? What are the metrics that will be employed?
