

Parent Access To Canvas

Go to <https://canvas.cmslearns.org/discovery/>

Choose Parent/Guardian/Observer Login on the right.

If you already have an account, login.

If you need to create an account, click on the link in the top right of the corner.

Complete the registration information to set up your account. You will need the pairing code from the student.

A screenshot of a web browser window showing the Canvas registration process. The browser's address bar shows 'canvasstructure.com'. The page has a dark purple header with the Canvas logo. A 'Parent Signup' modal is open, containing several input fields: 'Your Name', 'Your Email', 'Password', 'Re-enter Password', 'Student pairing code', and 'What is a pairing code?'. Below these fields is a checkbox labeled 'You agree to the terms of use and acknowledge the privacy policy.' At the bottom of the modal, there are three buttons: 'Cancel', 'Start Participating' (highlighted in blue), and 'Cancel'. The background of the page is mostly obscured by the modal and various colored overlays.

Pairing codes can be generated by a student or on behalf of a student by Canvas Admin.

Once generated, the pairing code can only be used to link the student who created the code or had the code created on their behalf.

Additional pairing codes must be created for each student that will be linked to an observer.

Once you place the pairing code in the text box, you are able to click the blue Start Participating Button on the bottom right.

Then you should have access to view the selected student's Canvas course.
